ETEILY TECHNOLOGIES INDIA

Your Best Electronic Component Sourcing!

Eteily Technologies is leading RF Solution provider for wireless infrastructure systems offering more than 1000 products holding Indian Government Approval, ISO9001 certification and complied with RoHS index with best-in class performance since 2017. Our product line covers Base station , External & Embedded Antenna Solutions.

We provide Cellular, GNSS, Wi-Fi, LoRa/ISM/IoT/Helium band Antennas. Our Antennas are of good coverage and higher throughput in the field ensuring good transmission and reception. Apart from antennas, we are reputed suppliers of PCB Components, PCB Connectors, SIM & SD Card Connectors, Solar Products & Parts, Battery packs, EV Battery chargers and its accessories. We also provide RF Cable and Connectors fully customized to suit your applications.

With word-class design, consultancy and engineering expertise, along with sales support and advance testing, Eteily delivers all kinds of antenna solutions to market quickly and cost-effectively. We have full capability to design and test all our RF products from Antenna to Cable assemblies. We offer very competitive pricing for our customers in order to deliver high quality products in a timely fashion. We are long term reliable suppliers serving more than 1 lakh happy ,satisfied customers globally with best solutions.

We promise to offer unique solution, exceeding your expectation with the support of our well recognized team

2G Cellular Antenna

ETEILY has a complete range of 2G antennas for applications supporting UMTS, GSM, GPRS, AMPS, PCS, EDGE and CDMA. We provide comprehensive antenna design solution supporting all applications to meet your specific needs. Our antennas with high efficiency and low loss properties gives consistent and stable connectivity with high throughput data to access points, routers, small base station, repeaters, boosters, fleet management devices and other telematics devices with cellular needs.

ETEILY supply rubber ducky antennas with different orientations such as straight, right angled and movable body. These rubber duck antennas are dipole, waterproof, SMA/N/TNC Connector antennas. These antennas are also available with Reverse polarity and pigtail(1.13mm+UFL) options.

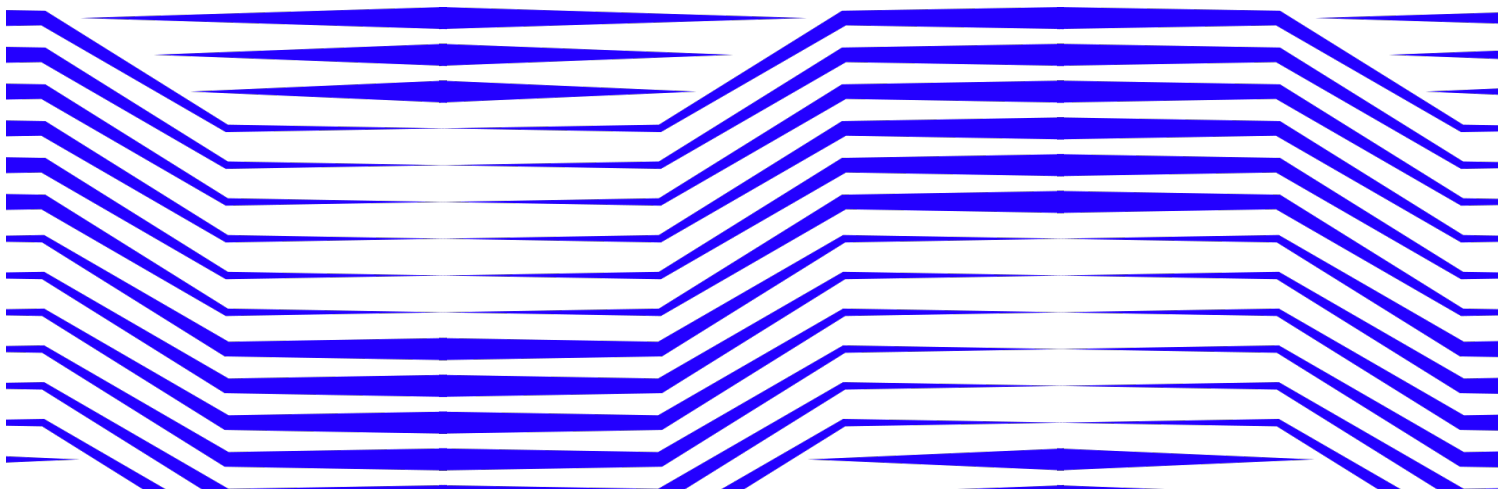

3G

Cellular Antenna

ETEILY supplies high performance 3G antenna with full bandwidth coverage from 824~960 / 1920~2690 MHz cellular spectrums with GPRS, WCDMA, UMTS, HSPA, EVDO technologies operating on 3G standards. These antennas were designed to improve signal strength allowing uninterrupted connectivity, better signal quality, and reliability while providing increased data throughput.

Our 3G antenna portfolio includes wide range spanning from embedded , External and Outdoor antennas with different mounting operations.

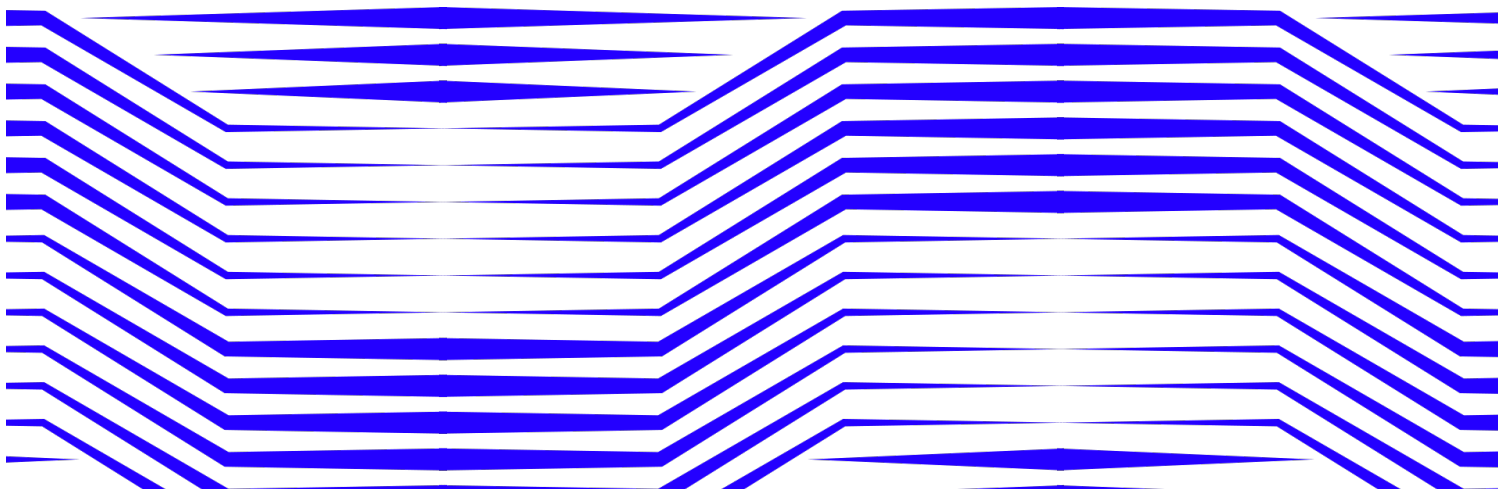

4G

Cellular Antenna

ETEILY offers customized high-performance 4G antenna portfolio which boosts wireless connectivity significantly by offering the highest quality antenna and its accessories. Our antennas fit a range of applications, mounting options, combinations and environment requirements with embedded, external and outdoor solutions.

Our 3G antenna portfolio includes wide range spanning from embedded , External and Outdoor antennas with different mounting operations.

Our wide band High Efficiency antenna solution for worldwide 4G LTE with 2G, 3G fallback compatibility, covers all cellular bands ranging from 698-960, 1710-2170 and 2500-2700MHz. These 4G antennas helps you to improve the 4G/LTE signal effectively, especially useful for 4G Routers and Modems.

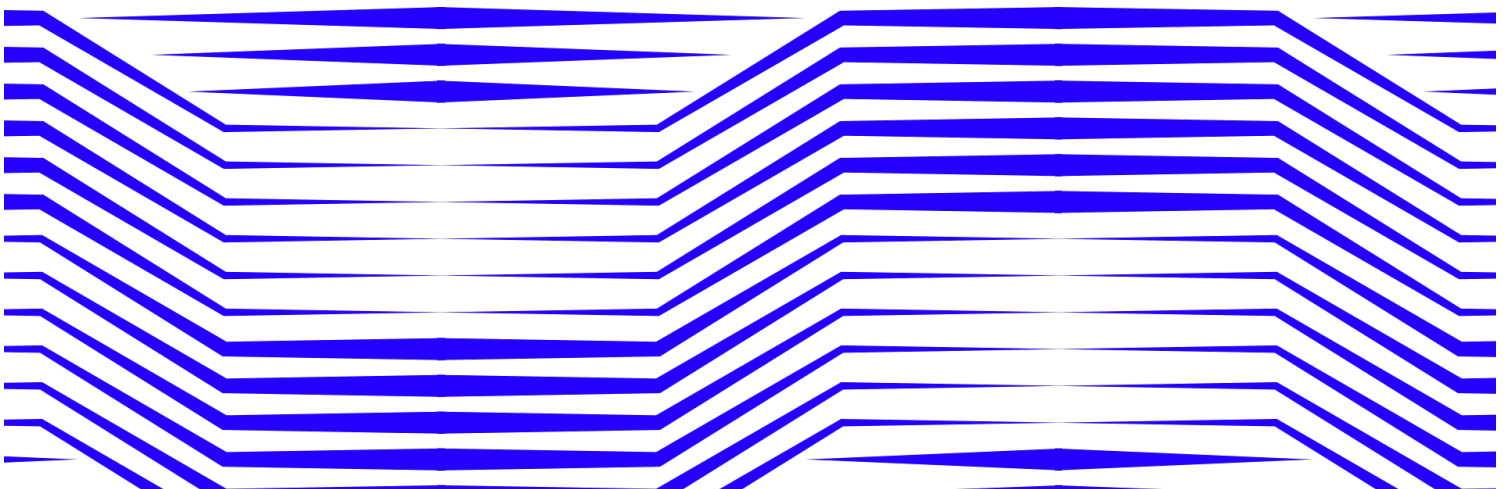

5G Cellular Antenna

5G technology represents the fifth generation of wireless systems hoping to gradually replace or expand the popular LTE standard in future.

ETEILY's 5G antenna ensures high-quality 5G signal, a precisely manufactured antenna system with wide mounting options, which is a key element of the entire 5G solution.

Our 5G antennas are characterized by higher transfer rates and a significant reduction in response time. These 5G Antenna supports LTE frequencies 800, 1800, 2100, 2600MHz as well as frequencies intended for 5G 700, 3500-3700 MHz to 6000MHz. Wide range of antennas spanning from extremely small Surface Mount antennas to large Fiberglass antennas are available with different gain ranges.

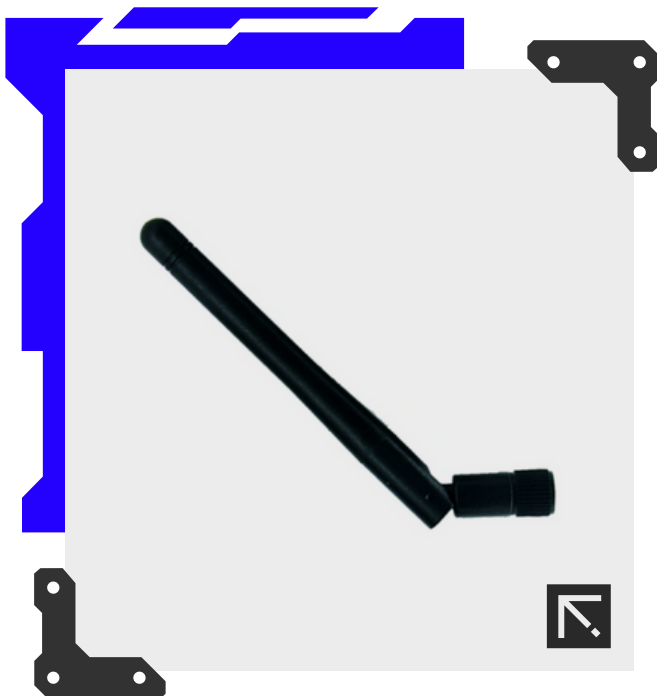

RUBBER DUCK ANTENNA

Available in 2G, 3G, 4G

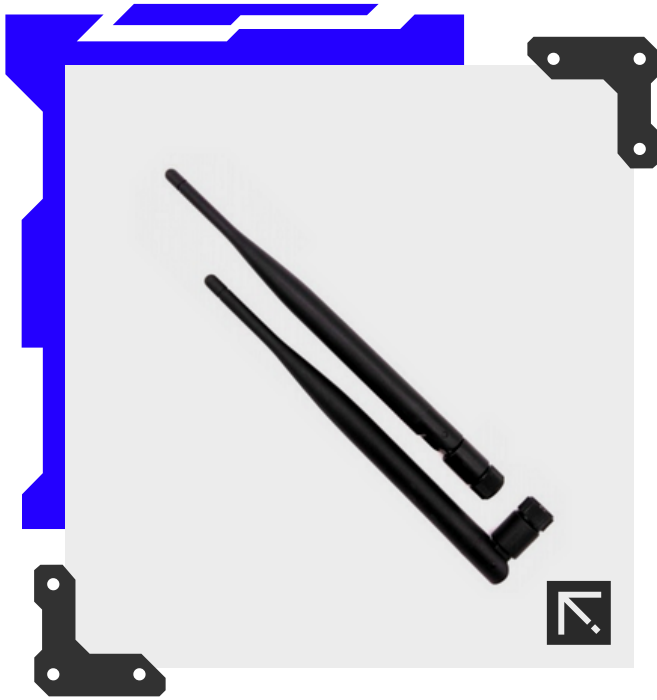

- Gain: 2.5dBi
- Mount: Terminal Mount
- Radiation: Omnidirectional
- Antenna Length: 50.2mm
- Material: ABS
- Connector: SMA Male
- Orientation: Right Angled

RUBBER DUCK ANTENNA

Available in 2G, 3G, 4G

- Gain: 3dBi
- Mount: Terminal Mount
- Radiation: Omnidirectional
- Antenna Length: 108mm
- Material: ABS
- Connector: SMA Male
- Orientation: Movable

RUBBER DUCK ANTENNA

Available in 2G, 3G, 4G

- Gain: 5dBi
- Mount: Terminal Mount
- Radiation: Omnidirectional
- Antenna Length: 196mm
- Material: ABS
- Connector: SMA Male
- Orientation: Movable

RUBBER DUCK ANTENNA

Available in 2G, 3G, 4G

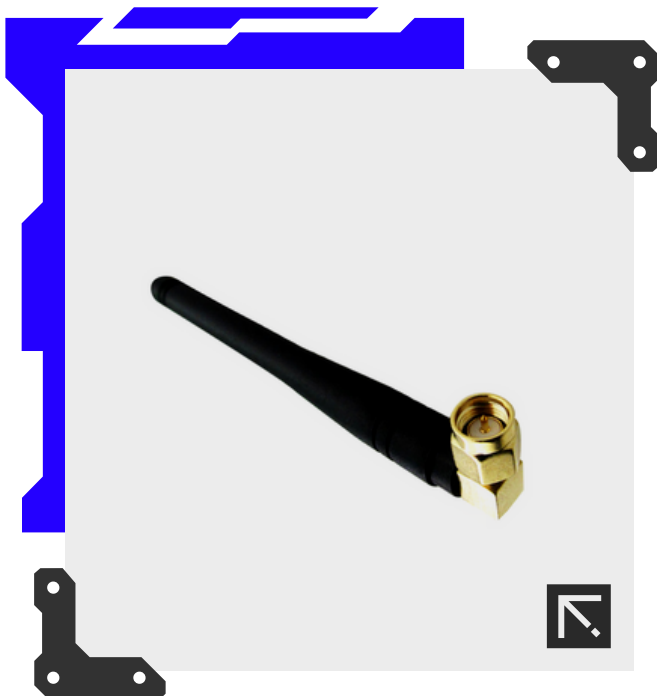

- Gain: 6dBi
- Mount: Terminal Mount
- Radiation: Omnidirectional
- Antenna Length: 159mm
- Material: ABS
- Connector: SMA Male
- Orientation: Movable

RUBBER DUCK ANTENNA

Available in 2G, 3G, 4G

- Gain: 5dBi
- Mount: Terminal Mount
- Radiation: Omnidirectional
- Antenna Length: 108mm
- Material: ABS
- Connector: SMA Male
- Orientation: Straight

RUBBER DUCK ANTENNA

Available in 2G, 3G, 4G

- Gain: 5dBi
- Mount: Terminal Mount
- Radiation: Omnidirectional
- Antenna Length: 106mm
- Material: ABS
- Connector: SMA Male
- Orientation: Right Angled

PADDLE ANTENNA

Available in 5G

- Gain: 6dBi
- Mount: Terminal Mount
- Radiation: Omnidirectional
- Antenna Length: 195mm
- Material: ABS
- Connector: SMA Male
- Orientation: Movable

RUBBER DUCK ANTENNA

Available in 5G

- Gain: 12dBi
- Mount: Magnetic Mount
- Radiation: Omnidirectional
- Antenna Length: 170mm
- Material: ABS
- Connector: SMA Male
- Cable: RG174 / Customized

LPDA Antenna

Available in 5G

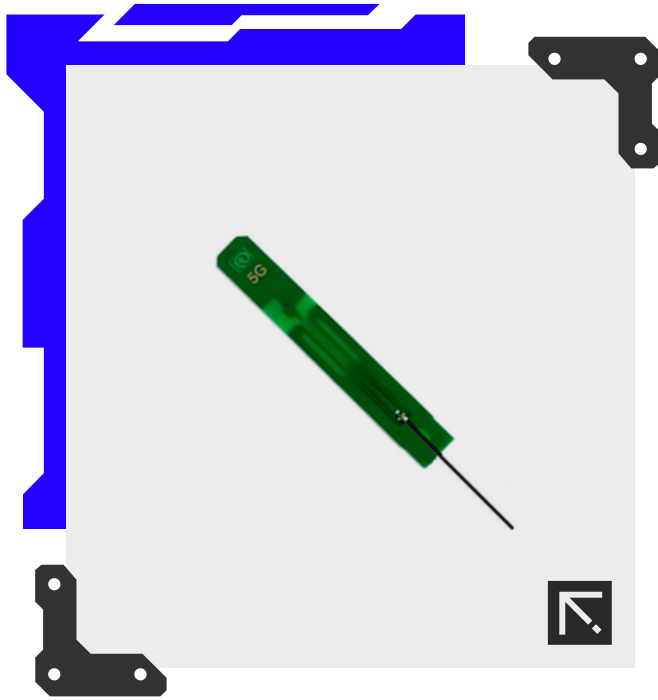

- Gain: 14dBi
- Mount: Pole/Wall Mount
- Radiation: Directional
- Antenna Length: 445mm
- Material: ABS
- Connector: SMA Male
- Cable: RG58 / Customized

Screw Mount Antenna

Available in 5G

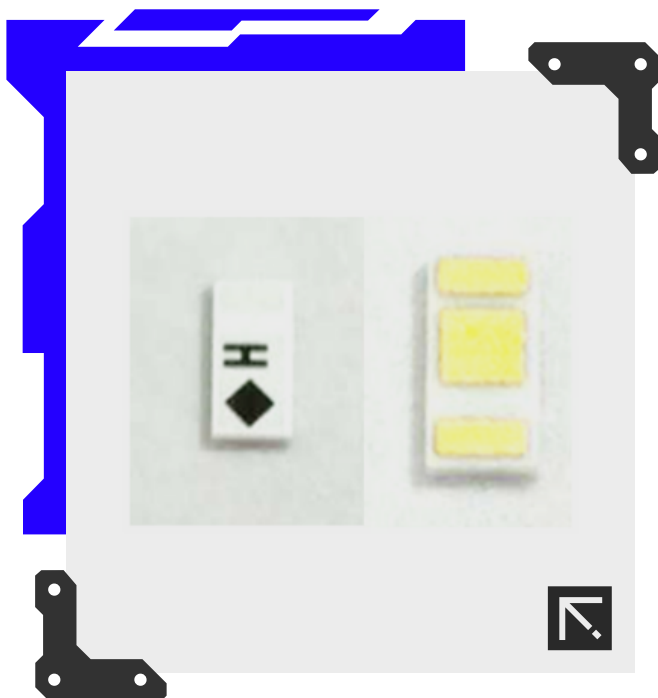

- Gain: 6dBi
- Mount: Screw Mount
- Radiation: Omnidirectional
- Antenna Length: Dia;80mm
- Material: ABS
- Connector: SMA Male
- Cable: RG141 / Customized

Internal PCB Antenna

Available in 5G

- Gain: 2dBi
- Mount: PCB Mount
- Radiation: Omnidirectional
- Antenna Length: 113x16mm
- Material: FR4
- Connector: UFL female
- Cable: 1.13mm (L-10cm)

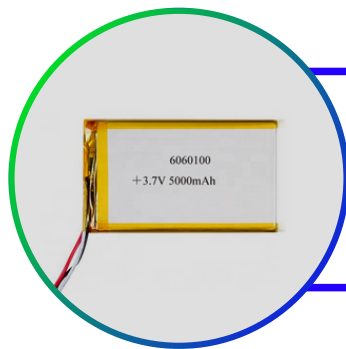

Surface Mount Internal PCB Antenna

Available in 5G

- Gain: 2dBi
- Mount: Surface Mount
- Radiation: Omnidirectional
- Dimension: 3.2x1.6mm

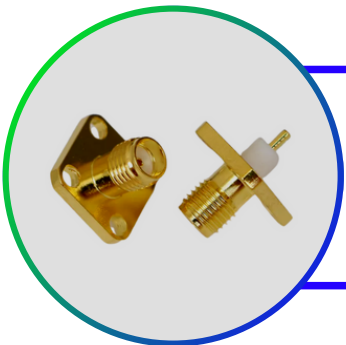

HERE ARE MORE

Lithium Polymer Battery Pack

- Nominal Capacity: 5000mAh
- Nominal Voltage: 3.7V
- Charge Cut-off Voltage: 4.2V

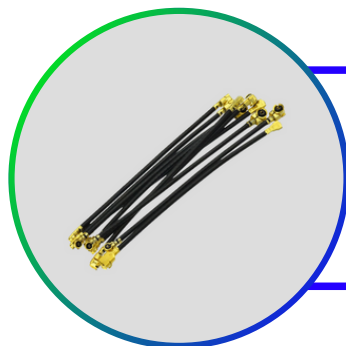

CODE : ET-LP3.7V5AH

SMA 4 Hole Panel Mount Connector

- FREQUENCY: DC~6GHz
- MOUNT METHOD: Panel Mount
- GENDER: Female

CODE : ET-SFS-4H-T5M

RF Cable Assembly

- CONNECTOR. I: UFL Female
- CONNECTOR. II: UFL Female
- FREQUENCY: DC~6Ghz

CODE : ET-U-5L20C-U
